Languages: Thai (Native), English (Native)

PROFESSIONAL EXPERIENCE

UNDERGRADUATE CONSULTANT/MARKET ANALYST | Lawn Die | Richmond, VA August 2025 – December 2025

- Partnered with a four-person consulting team to develop Lawn Die's go-to-market strategy, collaborating with company stakeholders to support its national launch
- Identified eight target customer segments through market research and data analysis, translating insights into four strategic recommendations across marketing, licensing, and customer engagement
- Built pricing and ROI analysis to evaluate growth initiatives, presenting recommendations backed by financial projections of \$101K+ in potential revenue and \$49K+ in projected profit

RESEARCH LEAD | OceanEdge Consulting | Cape Town, South Africa May 2024 – August 2024

- Developed a 'Blue Lease' framework for 230+ marine and industrial tenants at the V&A Waterfront, with adaptability for future implementation across various sectors, for the Q1 2025 rollout
- Compiled a 30-page business discovery framework with data sources, interviews, and case studies to guide strategy and develop feasible, actionable and realistic solutions that were well-received by the client
- Conducted 24 interviews and synthesized 60+ pages of notes into a 15-page summary used by executives for Q1 2025 rollout

ANALYTICAL PROJECT EXPERIENCE

Business Process Optimization: Led efforts with Parking and Transportation Services to analyze and redesign the university's citation, permit, and appeal workflows. Conducted interviews with the Director and Assistant Director to identify process inefficiencies. Built SQL triggers and stored procedures to automatically log citation corrections and calculate officer-level mistake rates, uncovering a 2.6% manual citation error rate and eliminating a fully manual review process. Optimized query performance through indexing, reducing execution time from 0.1 seconds to under 0.0043 seconds. Presented findings to faculty stakeholders and addressed follow-up questions on database design and process analysis in a live Q&A.

LEADERSHIP EXPERIENCE

CHAIR, STUDENTS' APPEAL BOARD | Department of Parking and Transportation | Richmond, VA May 2023 – May 2026

- Processed 800+ parking permits, resolving 50+ weekly inquiries from students, faculty, and visitors
- Streamlined 5K parking records, matching ID numbers and removing outdated information to improve data quality and support operational planning
- Delegated 200+ student parking appeal hearings, supervised and trained new student employees, and collaborated with department leadership on fleet planning and enforcement decisions
